COOLER WEATHER IMPARTS CON-SIDERABLE LIFE TO BUSINESS.

Produce Men, However, Complain of Narrow Margins-More Hopeful Outlook in Cereals.

The pleasant cool weather is increasing the volume of business in nearly all lines. ness and competition is active. There is an increasing demand for apples, but with an abundant supply prices remain unchanged. Peaches are about done. Cranberries and choice quinces are in good de-Choice Irish potatoes continue active, but with a good supply prices are noted. The same is true of sweets. The latter are nearly as cheap as the former and the demand is better in consequence. Cooler weather has increased the demand for cabbage and onions. Produce dealers report business as unsatisfactory, as eggs. poultry and butter are so high that their margins are small if they wish to do much business. The arrivals of poultry are fairly lasge, but the supply of eggs is not excessive and the market for strictly fresh is steady as quoted. The butter market, both for Eigh and domestic, rules firm. In groceries there is a good deal of activity, and while orders are of a hand-to-mouth character. a big volume of business is in progress. There seems to be no let up in competition, and as a consequence all the leading articles are sold very close. There is competition from without as well as within. Sugar has token on a steadier tone. The recent reductions is attributed to several causes. One is the falling off in consumption, usual at the close of the fruit seasen, and another is increased output, caused by the starting up of the beet sugar plants which usually begin work this month. Package coffee is in good demand and prices are firm. New Orleans new crop molasses will begin to arrive the latter part of this month. Canned goods are without feature though generally weaker. Corn, however,

OUTLAWS COME TO GRIEF

DESPERATE FIGHT ON A STOLEN BOAT IN THE PHILIPPINES.

One of the Fugitive Constabulary Officers Killed and the Other Wounded-Four of the Crew Slain.

MANILA, Oct. 14.-The crew of the boat in which Johnston and Herman, the runaway constabulary officers, accompanied by one constable, started from Guibal for Cag- | the recorded price changes: ayans island, attacked the outlaws on nearing the latter place, killing Johnson and wounding Herman and the constable. Herman killed four of the crew and the other two jumped overboard. He then put back to Negros, whence he sent guns and ammunition to the police and abandoned the boat off Nabalva, Bayouan, where he was in hiding when the last was heard of him. On Saturday night last the police captured the boat, recovering a number of constabulary guns, ammunition and some money, They also buried Johnston, whose body was found in the boat. It is presumed that the crew intended to kill the outlaws and secure their money and arms.

Larado Toledo, the insurrectionist, who has been operating in Albay for some time past, has surrendered with thirty men and ten of his guns. The only band of insurgents now operating in Albay is that com-manded by Saria, possessing, it is believed, some ten guns. The Philippine commission has notified the Chinese government that an export duty of 5 per cent. has been imposed on

Rather a Better Tone in Crucible Steel, with Some Recovery in United States Steel Preferred.

NEW YORK, Oct. 14.-Attempts on the part of the professional traders to advance stock prices to-day were disturbed by the very much the same manner as yesterday. sequence were generally wiped out and the The strength in the early dealings was helped by the higher range of prices in London, where the financial community felt great encouragement over the prospect of averting hostilities between Russia and Japan. The stock market situation at Pittsburg was much improved to-day and market values of Crucible Steel preferred went far towards repairing the damage done by vesterday's panicky break. The responsive pressure on United States Steel preferred, which broke that stock in yesterday's market, was relieved in consequence. The official denial of some of the disturbing rumors regarding the business of some of the industrial corporations indicated the activity of bear manipulations in disseminating the rumors and prompted to some

The break in the Canadian group of stocks offered the first interruption to the caused by yesterday's rumors of financial difficulties in Montreal. The effect on the general list was not very marked and attempts were made to contest the reaction. The market was without any animation, however, after this development. Later in the day the weakness of Amalgamated Copper overshadowed the whose situation. This stock was lifted a point in the early dealings and reflected quite an active speculation based on to-morrow's dividend meet-The late break to 33%, a low record for the stock, caused all sorts of surmises about to-morrow's dividend action. No news developed regarding

Several attempts were made to rally the market after the various points of weak-ness had developed. One of these took the form of a bidding up of the Vanderbilt group. This seemed designed to give the impression that the leading members of the family in control, newly returned from abroad, was buying the stocks. But their subsequent release pointed to the move-ment as a traders' device. There was a buying movement at one time in Reading also. The resumption of the hearing in the United States Shipbuilding suit seemed to exercise a depressing effect on the trading.

The day's returns of railroad earnings were generally favorable and the decline in imports and the corresponding benefit to the country's favorable trade balance, as reported by the bureau of statistics in the September foreign trade return, indicated a favorable factor in the exchange situa-But these considerations failed to hold the late market against reaction. UNION STOCKYARDS, INDIANAPOLIS, Oct. 14.-Cattle-Receipts, 1,300; shipments, 200. There were really no new developments in the cattle situation to-day. The supply, considering quality and condition, was entirely adequate, but there was probably no more than enough strictly good stock to accommodate the trade. As was the case yesterday, there was no really urgent competition for any kind, but a fair demand from all sources for the best selections, which sold at

steady prices generally, and the best cows and heifers, on account of their scarcity, were salable at rather strong prices. There was a very and it was only after the hardest kind of work that this kind could be transferred. All dealers proof of this assertion. The best feeding cattle are still bringing about steady prices, but all

others were neglected. Hogs-Receipts, 5,500; shipments, 3,000. Although the receipts to-day were probably as large as ex-pected, and the close of trade yesterday indicated a weaker market, the demand this morning, especially from shippers, was active, and there was enough inquiry from local sources to create rather sharp competition, which resulted in an active market. Prices generally were fully as high as those prevailing at the best time yes-terday, and no doubt many transactions were 5@10c higher than equal kinds sold late yesterday. The quality generally was satisfactory, and this being the principal requirement of buyers there was rather a close range in prices for the bulk of the sales. The discrimination against common light hogs is responsible for about the usual margin in prices between extremes. It did not require long to exhaust the early supply at opening prices. There were not a great many hogs came in late to-day, but with local packers out of the field there was some discrimination against the light weights, especially the ordinary class, and they were difficult to sell at morning prices. There was a very fair demand at the close from shippers for the selected medium hogs, and they bought a few answering that description as high as \$6, which was the top price of the day. Aside frome these sales the closing market did not appear to be any higher in any respect than the opening. Ordinary light hogs to selected mediums sold from \$5.5006 to-day, and

The market was active, with both shippers and butchers buying, and if there is any difference at all it was in favor of the seller. It did not require long to exhaust the supply, and the close was fully steady at opening prices. Horses—There is some improvement in the marketing of horses at the close of this week, about 225 head having arrived for the regular auction sale of the Blair-Baker Horse Co. Practically the same class of horses was represented as in the initial sale of the week, which means that the average in quality and condi-tion was not above the average of last week. There was a continued fair attendance of buyers, but no improvement in the demand, and it was more or less difficult to negotiate sales of all kinds at lower prices, and the common stock was badly neglected. Prices in a general way were \$10 per head lower than last week; in 180lated cases there was possibly more change than this, and in a few instances high-class drivers sold nearly steady. There were very few horses in any class good enough to bring over \$175, and most of the medium to good chunks and drivers sold from \$100@150.
